Gary & Debbie

I promise this will be the last hearing one for a while till fall.

This contested application is for one of the large residential developments (ground water) along I-84 toward Mtn Home. There are 2 protestants and 2 intervenors. The parties are all working toward a settlement, but need a back stop. There are no heavy hitters here, I think this one will be settled.

Would like to schedule a hearing for September 22 thru 24 (3 days) at SO  
Debbie, we need at least 2 rooms.

I will send out the notices pending your reply.  
Let me know if you have concerns.

Thanks

John
